Honorable Commissioner of Patents and Trademarks

Dear Sir:

Copies of all the listed disclosures are attached hereto. This citation is made solely for the purpose of giving the Patent and Trademark Office Examiner an opportunity to make an independent review of such disclosures in the course of examining this Application.

It is respectfully submitted that the present invention, as defined by the claims in the above-identified Application, is patentable over the above disclosures. No other representation of any nature is made or intended by this citation.

Applicant desires to call the Examiner's attention to United States Patent No. 5,220,500. Applicant has not submitted the voluminous Appendix of the patent, however

Applicant's Attorneys have maintained a copy of the Appendix in their file in case the Examiner desires to review the same.

Respectfully submitted,
